

Makeup Assignment

Given the source code of ATM case study in **atm_src** folder.

Add a new transaction, Admin, to show all the user information on the ATM screen.

The user account and password for the administrator are 99999 and 11111,

respectively. **Only when** the administrator is logged in, enter 999 to show all the user information in the main menu. You **have to** follow the system design in the class diagram to extend this new feature.

Expected results:

C:\Users\cya\source\repos\Project3\Debug\Project3.exe

Please enter your account number: 99999

Enter your PIN: 11111

Main menu:
